Experience

Web Design Freelancing

MARCH 2021-MAY 2021

ONI MARKET : <https://oni.exchange>

Designed all webpages for mobile and web, instagram and tiktok advs., twitter banners and offered design solutions when necessary. Coordinated with coding team for better development of frontend.

RDV360

Designed webpages for mobile and web application.

Team Projects

SRM Repository

Allows users to search research papers and docs, and allows admin to add new users just by adding google scholar url.

Oversaw all aspects of design and development, and offered design solutions when necessary.

Solo Projects

Designed, planned, developed, tested, and deployed, the applications.

Studivia : Notes, Question Papers And Pdfs Selling Website

Allows users to upload, view, search and download pdfs. Functionality to view profile and follow other users.

Designed using figma, used ejs for frontend to make html scripts smaller along with express js and node for backend, and integrated MySQL with node for database.

Deployed application on aws using ec2 for nodejs and amazon RDS for MySQL database.

Grab A Bite : Food Delivery App

Allows users to add items to cart, place order, add to favs, view history, search, update profile, track food, get notifications, add and view reviews, view cafes by location and much more.

Used figma for design, react native to develop for both ios and android, and firebase products for backend.

Merchant Interface For Food Delivery App

Allows merchants to view orders in real time, manage menu, add products and view history.

Used figma for design, react for front, and firebase products for backend and hosting.

Order Food Via Qr

Users get ability to add items to cart, place order and search food items by scanning QR code of the cafe.

Anime And Manga Timer

Allows users to add to favs, view details and schedule of any manga or anime and search.

Transfer Playlists From Youtube To Spotify And Vice Versa

Allows users to transfer entire music playlist from youtube to spotify and vice versa.
